I just passed the ECBA exam and I would...

I just passed the ECBA exam and I would like to thank Adaptive US for all the study material and mock tests they provided. I am from the banking industry wanting to enter the field of business analysis and Adaptive made it so much easy for me to pass the exam and prepare for a bright future ahead.

As an aspiring BA, I was finding it difficult to understand BABoK through just self-studying. With a full-time job it was also very hard to find the time and stick to a schedule. After months of searching, I am so thankful that I stumbled upon Adaptive US. The lectures were easy to understand and made going through BABoK easy. The study guide and study plan saved me so much time and helped me remain focused. The extensive knowledge base offers so much more other than just preparation for the certification and lectures. The simulations offered are a great way to get an idea of what the test environment and the questions will be like. The service team was excellent- answering my every question as soon as they can, no matter how many times I approached them, with whatever questions I could think of.

I would recommend Adaptive US for your preparation for IIBA certifications. :)

Highly recommend this for people with work break

Highly recommend this for people who have had a long break in their work and would like to start a BA career. I did the ECBA course and it was very informative and helped to build my confidence. The tutors have a thorough knowledge of the subject and have years of experience to back it up.

I used the question bank to write my ECBA exam. It was extremely helpful. I have a hard time with multiple choice exams but after studying from the question bank I did not have any anxieties and passed the exam with no problem. Thank you for your help

Passed with Ease!

I enrolled in the ECBA Assisted learning program with Adaptive US. its been 38 days and I am already certified! Adaptive US has exceptional learning materials which save you time and effort! the Adaptive Study guide saved me the trouble of sifting through the heavy BABOK and the practice exams were closely calibrated with the actual exam. Not to mention the continued support from the Instructors Mr. LN and Ms. Lora. and support from Ms. Ann.

Would definitely recommend to anyone looking to take up an IIBA certification.

From day one, Adaptive US was incredibly supportive and responsive. I found out, last minute, that an ECBA would significantly bolster my career prospects and that led me to find Adaptive through a Quora answer of theirs that explained that it could all be done in 6 weeks. With their course and material, I proud to say that I had it done in that 6 weeks so for those looking to give them a shot, I highly recommend them!
