CUSTOMERS SPEAK

"I was in the first CCA cohort, and even though the course was new, it was still very high quality. Adaptive offered excellent material for learning new content and revising and building on existing knowledge. This is great, you don't need to be a knowledge expert from the start, their training material assists in filling the gaps. I passed the CCA first go without any problem, and well above the averages."

Jeremy Roach

Thrilled to have achieved my Certificate in Cybersecurity Analysis (CCA) with the International Institute of Business Analysis (IIBA), it's been on the hit list for a while. First of all, I'd like to thank Adaptive US for their excellent training materials. They make the journey extremely easy for you. Thanks to IIBA for the opportunity to learn key cybersecurity concepts in the context of Business Analysis.
